Village District of Eastman
Commissioners' Meeting, February 25, 2026
9:00 AM, VDE Office/Zoom

In attendance: Commissioner Terry Large, Commissioner Brad Moses, Commissioner Bill Weeks, Treasurer Bill Samuels, Clerk Lin Hill, and General Manager Amy Lewis.

Guests: Dave Cole, Moderator
John Tomasz - 6 Pleasant Drive

At 1:02PM, this meeting was reconvened from Thursday, February 19.

Commissioner Moses provided feedback on the Greensward Special Place meeting. Executive Assistant Zani had followed up on a discolored water complaint from Longwood Drive; the customer indicated that the discoloration was very slight.

The last filter is fully rehabilitated and ready to be placed in service. Commissioner Large observed that water quality now is the best it has been since he has been a resident. This completes steps 1 and 2 in the Corrective Action Plan filed with and accepted by NHDES. GM Lewis said that flushing on Longwood appears to have alleviated any issues in that area, and Moose Run has been clear. There is one customer on Brookridge Drive who is experiencing discolored water intermittently. EA Zani will follow up with this customer.

There was discussion about the viability of providing bottled water to affected customers. General consensus was that this is a temporary, although unwelcome, problem that essentially affects any water system treating for iron and manganese removal. VDE is taking all possible steps to solve the problem as part of the ongoing Corrective Action Plan.

Other:

An agenda for the Annual Meeting will be developed and posted online.

Election ballot voting requires polls to be open for a minimum of two hours. The bond voting, Article 2, requires that the polls be open for a minimum of one hour. Moderator Cole provided a run-down of his preparations for the Annual Meeting, including the voting process.

The Commissioners will meet March 3 at 10AM for a workshop dedicated to preparation for the Annual Meeting. A slideshow presentation will be prepared as in the past, with the Commissioners speaking to specific parts of the slideshow.

Commissioner Large will focus the news for the next e-newsletter on the filter rehabilitation and subsequent water quality improvements.

With nothing further, Commissioner Weeks moved to close the meeting at 2:38PM. Commissioner Moses seconded and the motion passed unanimously.

Respectfully submitted,

Amy Lewis
General Manager
Village District of Eastman
